PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

▪ **Countries represented at the table**

Finland, Germany, Czech Republic, Slovenia

▪ **Projects already in place**

- Buffalos as landscape preservers for financial benefit
- Small village landscape, projects like paths, towers for bird watching

▪ **Planned projects**

- Using the material of landscape for renewable energy

▪ **Challenges and problems to be solved**

- In Finland national parks are for away and the state is the owner
- Slovenia: how to find enough money to solve all the problems?
- Touristic aims versus nature preservation
- most tourists don't appreciate the nature and its preservation

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

- **Countries represented at the table**

Estonia, Finland

- **Projects already in place**

- Nature parks

- **Planned projects**

- **Challenges and problems to be solved**

- In both countries the government is in charge of nature parks, so there are no problems

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

- **Countries represented at the table**

Poland, Germany, Belgium

- **Projects already in place**

- National parks
- Ecomuseum – 9 LAG cooperation projects
- Green classroom on different themes (water, forest, energy) => network “green classrooms”

- **Planned projects**

- Bicycle trails and canoe trails along the river (100 km)
- Bird watching (Poland)
- Protection of the river against erosion caused by free access
- Concept for green classrooms

- **Challenges and problems to be solved**

- Difficult to work with schools (organization of school)
- Teachers need more information
- Problem of vision: agritourism versus traditional industry
- People don't think that the environment / nature is important
- People are afraid by nature (natura 2000) (Poland)

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

- **Countries represented at the table**

Poland, Germany, Czech Republic

- **Projects already in place**

Czech Republic

- Nature protection along the river
- Kayaks
- Problems with the implementation of natura 2000
- How to be friendly with wild nature

- **Planned projects**

- Canoe routes
- Protection of the river landscape
- Ice age event – Saxony
- Horse trail
- Bird watching

- **Challenges and problems to be solved**

- acceptance of people – inhabitants and local government
- Money and time
- Conflict between horse keepers and landlords
- Damages by horses

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

- **Countries represented at the table**

Poland, Luxembourg, Romania, Austria, Latvia, Finland, Estonia, Germany, Czech Republic, Belgium

- **Projects already in place**

Poland

- A lot of nature conservation projects -> education for local people how to deal/ handle with nature, how to earn money "using the nature" in an environmental friendly way -> bird watching, local products , horse trails etc., establishment of regional + organic production, local brand based on nature quality

- **Planned projects**

- National nature park partners (NNPP) (nature, hotels, transport, accommodation and food)
- Involve local people in nature preservation
- To define the national park brand wider by including local products and guesthouses
- Web-cameras and 3-D-trips via internet to keep people at home

- **Challenges and problems to be solved**

- Restriction for farmers, entrepreneurs and local people
- Dependence from nature resources

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

1. Countries represented at the table

Finland, Latvia, Cyprus, Hungary, Austria, Luxembourg

2. Projects already in place

- Discussion about national parks and nature parks
- Discussion about the cooperation between LAG's and national/ nature Parks
- No projects directly in the topic "nature projection" in the LAG's

3. Planned projects

4. Challenges and problems to be solved

- Cooperation between different Stock partners and holders

PLEASE INDICATE THE MAIN POINTS
YOU TALKED ABOUT AT YOUR TABLE

Countries represented at the table

Belgium, Austria, Czech Republic, Slovenia

Projects already in place

- National park "Hohe Tauern" – linking national park with local development (66% private ownership)
- Direct cooperation with neighbors
-

Planned projects

- TNC projects are much easier in nature conservation
- TNC project on apple trails (Slovenia, Czech republic)
- Project on old industrial sites

Challenges and problems to be solved

- People are less interested in nature preservation than thought, but during the project duration the interest had been raised
- Financing study trips (which is very important)
